Amara View

Under the nose

Full face mask

Enjoy the view

No leading full face mask has the widest field of vision*

* Internal testing; data on file

High marks for performance, no marks on the bridge of the nose*

The innovative and unique under-the-nose cushion design of Amara View gives you the widest* field of vision of any leading full-face mask that allows you to wear glasses, read and watch TV before falling asleep. That's as well as redefining comfort by preventing red marks and irritation on the bridge of your nose*.

Patients reported a:

- **20% higher satisfaction in ease of use**⁽²⁾**
- **29% higher satisfaction in comfort**⁽²⁾ ⁽³⁾**
- **37% higher satisfaction in overall appeal**⁽²⁾**

* Internal testing; data on file

** Philips Respiroics sponsored testing at two contracted clinical sites. Ninety-five compliant Quattro patients rated Quattro and then Amara View after approximately 30 days. Statistical significance at 95% confidence, +1-5% using paired t-test comparing averages of 0 to 10 rating scores.

⁽²⁾ p-value < 001

⁽³⁾ p-value = .015

Helpful user tips

- With your mouth slightly open, make sure the mask is resting comfortably against your face, **with the cushion nostril opening under your nostrils, and the bottom of the cushion resting just above your chin. The headgear should be away from your eyes.**
- The **most common mistake is over-tightening the headgear.** It should fit loosely and comfortably on your face. If your skin bulges around the mask or you see red marks, simply loosen the headgear.
- Assume different sleeping positions when fitting by moving around until comfortable. If there are any excessive air leaks, make final adjustments by **adjusting the headgear top and bottom straps but also the headgear crown strap that prevents leaks to go to your eyes.** some air leaking is normal.

Achieving the right fit with Amara View is easy

Just follow the instructions below

For more fitting tips or to find out how to adjust for leaks, please take a look at our video guides: sleepapnea.com/products/masks/amara-view/resources/

1
Loosen the headgear.
Twist the headgear clips
to disconnect.

2
Choose the cushion size
that covers the mouth
and sits at the nose base.

3
Gently holding the mask
against the face, pull the
headgear over the head.

4
Ensure the nose is over
(not inside) the cushion
nostril opening.

5
Press the headgear clips
into place to connect.

6
Pull back the headgear
tabs to evenly adjust the
top and bottom straps.

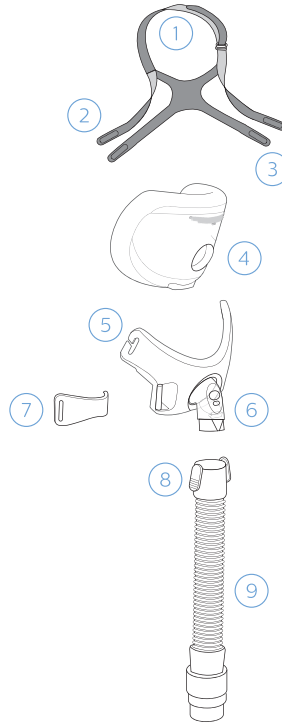

7
Adjust the crown strap
so the headgear sits
comfortably.

8
Connect the flexible
tubing (included with
your CPAP or bi-level
device) to the Amara
View quick release tube.
